Screw Lock Jig

Easy to rig, this specialty jighead holds soft-plastic bodies on, even through thick vegetation over the flats. It also helps the plastic lure stay on longer after numerous fish catches as compared to standard jigheads.

Curtailer

The *Curtailer* features a lifelike shad body, ultra-kick tail and unique color combinations.

"The tail of the *Conley Grub* moves with the slightest pull. While undoing a backlash, I've had fish pick the grub off the bottom - the only action was the movement of the tide. Not only is this grub the best one that I have ever used for redfish and snook, it is even better for trout, if that is possible."

Capt. Jim Conley
